

# Year 4 Science

Science Unit	Substantive Knowledge Objectives	Vocabulary	Disciplinary Knowledge: Working scientifically
Animals including humans  <b>Dr Marie Daly: First black woman to earn a PHD in chemistry. She researched high cholesterol diets.</b>	<ul style="list-style-type: none"> <li>describe the simple functions of the basic parts of the digestive system in humans</li> <li>identify the different types of teeth in humans and their simple functions</li> <li>construct and interpret a variety of food chains, identifying producers, predators and prey</li> </ul> <p><a href="https://www.pbs.org/education/blog/ten-black-scientists-that-science-teachers-should-know-about-and-free-resources">https://www.pbs.org/education/blog/ten-black-scientists-that-science-teachers-should-know-about-and-free-resources</a></p>	Digestive system, nutrition, mouth, teeth, canine, incisor, molar, pre-molar, saliva, tongue, rip, tear, chew, grind, cut, oesophagus (gullet), stomach, acid small intestine, large intestine, rectum, anus, carnivore, herbivore, omnivore, producer, consumer, predator, prey, food chain	<ul style="list-style-type: none"> <li><b>(WS)</b> Asking relevant questions and using different types of scientific enquiries to answer them</li> <li><b>(WS)</b> Setting up simple practical enquiries, comparative and fair tests</li> <li><b>(WS)</b> Reporting on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions</li> <li><b>(WS)</b> Using results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions</li> </ul>
Sound  <u>Key Scientists</u> AristotlGaiileo GalileiAlexander Graham Bell	<ul style="list-style-type: none"> <li>identify how sounds are made, associating some of them with something vibrating</li> <li>recognise that vibrations from sounds travel through a medium to the ear</li> <li>find patterns between the pitch of a sound and features of the object that produced it</li> <li>find patterns between the volume of a sound and the strength of the vibrations that produced it</li> <li>recognise that sounds get fainter as the distance from the sound source increases</li> </ul>	Sound, sound source, noise, vibration, travel, solid, liquid, gas, pitch, tune, high, low, volume, loud, quiet, fainter, muffle, strength of vibrations, insulation, instrument, percussion, strings, bass, woodwind, tuned instrument	<ul style="list-style-type: none"> <li><b>(WS)</b> Gathering, recording, classifying and presenting data in a variety of ways to help in answering questions</li> <li><b>(WS)</b> Setting up simple practical enquiries, comparative and fair tests</li> <li><b>(WS)</b> Identifying differences, similarities or changes related to simple scientific ideas and processes</li> </ul>
Electricity  <u>Key Scientists</u> Thomas Edison(First Working Lightbulb)Joseph Swan(Incadesecant Light Bulb)	<ul style="list-style-type: none"> <li>identify common appliances that run on electricity</li> <li>construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers</li> <li>identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery</li> <li>recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit</li> <li>recognise some common conductors and insulators, and associate metals with being good conductors</li> </ul>	Electricity, appliance, device, mains, plug, electrical circuit, complete circuit, circuit diagram, circuit symbol, components, cell, battery, positive/negative, connect, connection, short circuit, wire, crocodile clip, bulb, bright/dim, switch, buzzer, motor, faster/slower, conductor, insulator, metal/non metal	<ul style="list-style-type: none"> <li><b>(WS)</b> Recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables</li> <li><b>(WS)</b> Using results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions</li> <li><b>(WS)</b> Using straightforward scientific evidence to answer questions or to support their findings.</li> <li><b>(WS)</b> Asking relevant questions and using different types of scientific enquiries to answer them</li> <li><b>(WS)</b> Identifying differences, similarities or changes related to simple scientific ideas and processes</li> </ul>
States of Matter  <u>Key Scientists</u> Anders CelciusDaniel Fahrenheit	<ul style="list-style-type: none"> <li>compare and group materials together, according to whether they are solids, liquids or gases</li> <li>observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)</li> <li>identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature</li> </ul>	States of matter, solid, liquid, gas, air, oxygen, powder, granular/grain, crystals, change state, ice/water/steam, water vapour, heating, cooling, temperature, degrees Celsius, melt, freeze, solidify, melting point, boil, boiling point, evaporation, condensation, water cycle, precipitation, transpiration	<ul style="list-style-type: none"> <li><b>(WS)</b> Identifying differences, similarities or changes related to simple scientific ideas and processes</li> <li><b>(WS)</b> Setting up simple practical enquiries, comparative and fair tests</li> <li><b>(WS)</b> Making systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers</li> <li><b>(WS)</b> Reporting on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions</li> </ul>
Living things and their habitats  <u>Key scientists</u> Cindy LooyJaques Cousteau	<ul style="list-style-type: none"> <li>recognise that living things can be grouped in a variety of ways</li> <li>explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</li> <li>recognise that environments can change and that this can sometimes pose dangers to living things</li> </ul>	Classification keys, environment, fish, amphibians, reptiles, birds, mammals, vertebrates, invertebrates, names of them, human impact, positive, negative	<ul style="list-style-type: none"> <li><b>(WS)</b> Recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables</li> <li><b>(WS)</b> Making systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers</li> <li><b>(WS)</b> Gathering, recording, classifying and presenting data in a variety of ways to help in answering questions</li> <li><b>(WS)</b> Reporting on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions</li> </ul>
