|  | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: |
| Autumn 1 <br> Based on <br> gaps in <br> number <br> from 2021- <br> 22 | This may include some of the following based on previous assessment data and professional judgement: <br> count in steps of 2,3 , and 5 from 0 , and in tens from any number, forward and backward recognise the place value of each digit in a two-digit number <br> identify, represent and estimate numbers using different representations, including the number line <br> compare and order numbers from 0 up to 100; use <, > and = signs <br> read and write numbers to at least 100 in numerals and in words <br> recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 <br> add and subtract numbers using concrete objects, pictorial representations, and mentally <br> recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, <br> calculate mathematical statements for multiplication and division within the multiplication tables | This may include some of the following based on previous assessment data and professional judgement: <br> count from 0 in multiples of 4, 8,50 and 100 ; find 10 or 100 more or less than a given number <br> recognise the place value of each digit in a three-digit number <br> compare and order numbers up to 1000 <br> identify, represent and estimate numbers using different representations <br> read and write numbers up to 1000 in numerals and in words <br> add and subtract numbers with up to three digits, using columnar addition and subtraction <br> recall and use multiplication and division facts for the 3,4 and 8 multiplication tables <br> write and calculate mathematical statements for multiplication and division using the multiplication tables that they know | This may include some of the following based on previous assessment data and professional judgement: <br> count in multiples of 6, 7, 9, 25 and 1000 <br> find 1000 more or less than a given number count backwards through zero to include negative numbers <br> recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones) <br> order and compare numbers beyond 1000 <br> identify, represent and estimate numbers using different representations round any number to the nearest 10, 100 or 1000 <br> read Roman numerals to 100 (I to C) <br> add and subtract numbers with up to 4 digits using columnar addition and subtraction <br> recall multiplication and division facts for multiplication tables up to $12 \times 12$ | This may include some of the following based on previous assessment data and professional judgement: <br> read, write, order and compare numbers to at least 1000000 and determine the value of each digit <br> count forwards and backwards with positive and negative whole numbers, including through zero <br> round any number up to 1000000 to the nearest 10, 100, 1000, 10000 and 100000 <br> read Roman numerals to 1000 (M) and recognise years written in Roman numerals. <br> add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) <br> identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers <br> know and use the vocabulary of prime numbers, prime factors and composite (nonprime) numbers <br> establish whether a number up to 100 is prime and recall prime numbers up to 19 <br> multiply numbers up to 4 digits by a one- or two-digit number using a formal written method |

|  |  |  | multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers | divide numbers up to 4 digits by a one-digit number <br> multiply and divide whole numbers and decimals by 10,100 and 1000 <br> recognise and use square numbers and cube numbers |
| :---: | :---: | :---: | :---: | :---: |
| Autumn 2 | count from 0 in multiples of $4,8,50$ and 100 ; find 10 or 100 more or less than a given number <br> recognise the place value of each digit in a three-digit number (hundreds, tens, ones) <br> compare and order numbers up to 1000 read and write numbers up to 1000 in numerals and in words <br> add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction | count in multiples of 6, 7, 9, 25 and 1000 <br> find 1000 more or less than a given number <br> count backwards through zero to include negative numbers <br> recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones) <br> order and compare numbers beyond 1000 <br> round any number to the nearest 10,100 or 1000 <br> add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate | read, write, order and compare numbers to at least 1000000 and determine the value of each digit <br> interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero <br> round any number up to 1000 000 to the nearest 10, 100, 1000, 10000 and 100000 <br> add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) | multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication <br> divide numbers up to 4 digits by a twodigit number using the formal written method of short division <br> divide numbers up to 4 digits by a twodigit whole number using the formal written method of long division <br> add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) |

| Spring 1 | recall and use multiplication and division facts for the 3,4 and 8 multiplication tables <br> write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods | add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate <br> use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers <br> multiply two-digit and three-digit numbers by a one-digit number using formal written layout | identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers <br> know and use the vocabulary of prime numbers, prime factors and composite (nonprime) numbers <br> establish whether a number up to 100 is prime and recall prime numbers up to 19 <br> multiply and divide whole numbers and those involving decimals by 10,100 and 1000 <br> compare and order fractions whose denominators are all multiples of the same number <br> add and subtract fractions with the same denominator and denominators that are multiples of the same number | identify common factors, common multiples and prime numbers <br> use their knowledge of the order of operations to carry out calculations involving the four operations <br> use common factors to simplify fractions; use common multiples to express fractions in the same denomination <br> compare and order fractions, including fractions > 1 <br> add and subtract fractions with different denominators and mixed numbers <br> multiply simple pairs of proper fractions <br> divide proper fractions by whole numbers |
| :---: | :---: | :---: | :---: | :---: |
| Spring 2 | add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction including in the context of measure <br> solve missing number problems involving multiplication and division | estimate, compare and calculate different measures <br> multiply two-digit and three-digit numbers by a one-digit number using formal written layout in the context of measure | multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers <br> divide numbers up to 4 digits by a one-digit number using the formal written method of | associate a fraction with division and calculate decimal fraction equivalents fpr a simple fraction [for example, 83 <br> identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10 , 100 and 1000 giving answers up to three decimal places |

|  |  | add and subtract numbers with up to 4 digits in the context of measure | short division and interpret remainders appropriately for the context <br> recognise mixed numbers and improper fractions and convert from one form to the other <br> multiply proper fractions and mixed numbers by whole numbers <br> read and write decimal numbers as fractions | multiply one-digit numbers with up to two decimal places by whole numbers <br> use written division methods in cases where the answer has up to two decimal places |
| :---: | :---: | :---: | :---: | :---: |
| Summer 1 | recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators <br> recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators <br> recognise and show, using diagrams, equivalent fractions with small denominators <br> add and subtract fractions with the same denominator within one whole <br> compare and order unit fractions, and fractions with the same denominators | recognise and show, using diagrams, families of common equivalent fractions <br> count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. <br> solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number <br> add and subtract fractions with the same denominator | round decimals with two decimal places to the nearest whole number and to one decimal place <br> read, write, order and compare numbers with up to three decimal places <br> write percentages as a fraction with denominator 100, and as a decimal <br> solve problems which require knowing percentage and decimal equivalents of $1 / 2,1 / 4$, $1 / 5$, etc. and those fractions with a denominator of a multiple of 10 or 25. | recall and use equivalences between simple fractions, decimals and percentages, including in different contexts. <br> multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication <br> divide numbers up to 4 digits by a twodigit number using the formal written method of short division <br> divide numbers up to 4 digits by a twodigit whole number using the formal written method of long division <br> add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction) |

## Emmanuel Junior Academy: Maths Fluency Practice Overview

| Summer 2 | measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity (l/ml) <br> add and subtract amounts of money to give change, using both $£$ and $p$ in practical contexts | recognise and write decimal equivalents of any number of tenths or hundredths <br> find the effect of dividing a oneor two-digit number by 10 and 100 , identifying the value of the digits in the answer as ones, tenths and hundredths <br> round decimals with one decimal place to the nearest whole number <br> compare numbers with the same number of decimal places up to | use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, | use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places |
